2. Post TDA/TCA from Payment – After doing this step only, user will be able to generate TB

TCA Through Receipt

1. Enter Receipt, prepare challan and verify remittance
2. Post TDA/TCA from receipt – After doing this step only, user will be able to generate TB

TCA Through pay roll Journal

1. Enter Journal and verify journal
2. Post TDA/TCA from payroll Journal – After doing this step only, user will be able to generate TB

Step 2. Acceptance

If TDA/TCA raised by other unit , manual copy received and it is to be accepted by you

1. First ensure, originating details has been entered in the FAS ONLINE.
2. Check for the Journal number and date
3. If it has been originated before April 2011. Accept through TDA/TCA Cut off
4. If it has been originated during or after April 2011 use the TDA /TCA System
5. Select Create acceptance
6. Create and Post TDA/TCA Journal – After doing this step only, user will be able to generate TB

Step 3 Suspense Head Clearance

If TDA/TCA originated by you is accepted at the other end and manual copy for acceptance is received, suspense heads has to be cleared.

1. First ensure, the acceptance details has been entered in the FAS ONLINE.
2. Check for the Journal number and date
3. If it has been originated by you before April 2011. Suspense head clearance has to be done through TDA/TCA Cut off
4. If it has been originated by you during or after April 2011 use the TDA /TCA System
5. Select Suspense head clearance. Enter the journal date and particulars. On submit a journal is created

1.1 TRANSFER DEBIT ADVICE (TDA) / TRANSFER CREDIT ADVICE (TCA) SYSTEM

This module will help the accounting unit when the transactions between two or more divisions, which require the account settlement, are mainly of the following kinds.

- Services rendered by one Division to another
- Assets transferred from one division to another
- Cash recoveries made from employees, contractors, etc as also revenue released by one Division on behalf of another division.

Settlement of accounts can either by done through cashbook or adjusted by journal entries. This system can be used to achieve the above purpose and both are explained below.

The originating division should create the TDA/TCA in the form shown below along with necessary details.
